The University of Wyoming School of Energy Resources, created by the Wyoming legislature and the Governor, is built on the three pillars of teaching, research and outreach. The mission of the SER Energy Outreach Center is to support scientific, engineering, and economic outreach for near-term and long-term energy planning through the open dissemination of information related to energy activities in Wyoming. The Energy Outreach Center provides information outreach to the public, state, industry and nation; facilitates data sharing with industry groups and state agencies; and provides consulting specialists for the Wyoming energy industry.
